GAS HOLDER WEST OF FOURTH STREET

The Site for This Improvement Has Not Yet Been Selected.

One of the permanent improvements in the city government shortly to be made is a gas holder for the western section, to relieve conditions existing a the present gas works. The Council has appropriated \$50,000 in the budget to start the work, and the Committee on Finance have been authorized to make loans for the other \$100,000 when it will be needed for the completion of the holder, which is to cost \$150,000 in all. The city changed its policy on this mat-ter, and instead of issuing bonds will pay for the improvement out of current

The Committee on Light will have the selection of the site of the holder, and while no definite location has seen picked out, it is pretty certain that it will be west of Fourth Street.

The ordinance requires that the holder shall be west of Seventeenth Street, but from what can be learned, the committee have no idea of putting it east of Fourth Street, and it is not unlikely that it may be as high up as Brook Avenue.

The Light Committee will meet on April 15th, and it is not improbable that the members will then definitely determine upon the location. The holder is greatly needed, and it will facilitate the making of gas to a large extent.

WASHINGTON, D. C., April 6.—After waiting with much patience for many days, Mr. Heyburn to-day found opportunity to speak to the Senate on the subject of pure food. Technically, the speech was in support of a resolution-calling upon the Secretary of Agriculture to send to the Senate the results of the investigations made by his department into adulterated foods, but in reality it was in support of the pure food bill. Mr. Heyburn contended that a very large proportion of foods, drugs and liquors were adulterated. The physicians of the country want the legislation, he said, because under existing conditions that excepting the state of Missouri, which made an enormous appropriation for the purpose, Virging, will have the finest agricultural exhibit of any of the States.

"Kentucky appropriated \$100,000," said Captain Stone, "and we will outstrip her by long odds."

Mr. Hanks will leave for the Southwest to-day to look after the shipment of some coal exhibits.

"We are going to surprise everybody with the showing we will make for Virginia anthractic coal," said Mr. Banks.
